

Global Medical Assistance Program

This program provides medical assistance through a worldwide communications network which operates 24 hours a day. The network locates medical services and obtains Great-West Life's approval of covered services, when required as a result of a medical emergency arising while you or your dependent is travelling for vacation, business or education. Coverage for travel within Canada is limited to emergencies arising more than 500 kilometres from home. You must be covered by the government health plan in your home province to be eligible for global medical assistance benefits. The following services are covered, subject to Great-West Life's prior approval:

- On-site hospital payment when required for admission, to a maximum of \$1,000
- If suitable local care is not available, medical evacuation to the nearest suitable hospital while travelling in Canada. If travel is outside Canada, transportation will be provided to a hospital in Canada or to the nearest hospital outside Canada equipped to provide treatment

When services are covered under this provision, they are not covered under other provisions described in this booklet

- Transportation and lodging for one family member joining a patient hospitalized for more than 7 days while travelling alone. Benefits will be paid for moderate quality lodgings up to \$1,500 and for a round trip economy class ticket
- If you or a dependent is hospitalized while travelling with a companion, extra costs for moderate quality lodgings for the companion when the return trip is delayed due to your or your dependent's medical condition, to a maximum of \$1,500
- The cost of comparable return transportation home for you or a dependent and one travelling companion if prearranged, prepaid return transportation is missed because you or your dependent is hospitalized. Coverage is provided only when the return fare is not refundable. A rental vehicle is not considered prearranged, prepaid return transportation

- In case of death, preparation and transportation of the deceased home
- Return transportation home for minor children travelling with you or a dependent who are left unaccompanied because of your or your dependent's hospitalization or death. Return or round trip transportation for an escort for the children is also covered when considered necessary
- Costs of returning your or your dependent's vehicle home or to the nearest rental agency when illness or injury prevents you or your dependent from driving, to a maximum of \$1,000. Benefits will not be paid for vehicle return if transportation reimbursement benefits are paid for the cost of comparable return transportation home

Benefits payable for moderate quality accommodation include telephone expenses as well as taxicab and car rental charges. Meal expenses are not covered.

Out-Of-Country Care

- **Emergency care** outside Canada is covered if it is required as a result of a medical emergency arising while you or your dependent is temporarily outside Canada for vacation, business or education purposes. To qualify for benefits, you must be covered by the government health plan in your home province.

A medical emergency is either a sudden, unexpected injury, or a sudden, unexpected illness or acute episode of disease that could not have been reasonably anticipated based on the patient's prior medical condition.

Emergency care is covered medical treatment that is provided as a result of and immediately following a medical emergency.

If the patient's condition permits a return to Canada, benefits are limited to the lesser of:

- the amount payable under this plan for continued treatment outside Canada, and
- the amount payable under this plan for comparable treatment in Canada plus the cost of return transportation.

No benefits are paid for:

- any further medical care related to a medical emergency after the initial acute phase of treatment. This includes non-emergency continued management of the condition originally treated as an emergency
- any subsequent and related episodes during the same absence from Canada

- expenses related to pregnancy and delivery, including infant care:
 - after the 34th week of pregnancy, or
 - at any time during the pregnancy if the patient's medical history indicates a higher than normal risk of an early delivery or complications.
- **Non-emergency care** outside Canada is covered for you and your dependents if:
 - it is required as a result of a referral from your usual Canadian physician
 - it is not available in any Canadian province and must be obtained elsewhere for reasons other than waiting lists or scheduling difficulties
 - you are covered by the government health plan in your home province for a portion of the cost, and
 - a pre-authorization of benefits is approved by Great-West Life before you leave Canada for treatment.

No benefits will be paid for:

- investigational or experimental treatment
- transportation or accommodation charges.

The plan covers the following services and supplies when related to out-of-country care:

- treatment by a physician
- diagnostic x-ray and laboratory services
- hospital accommodation in a standard or semi-private ward or intensive care unit, if the confinement begins while you or your dependent is covered
- medical supplies provided during a covered hospital confinement

- paramedical services provided during a covered hospital confinement
- hospital out-patient services and supplies
- medical supplies provided out-of-hospital if they would have been covered in Canada
- drugs
- out-of-hospital services of a professional nurse
- for emergency care only, ambulance services by a licensed ambulance company to the nearest centre where essential treatment is available
